

COUNTING CARBOHYDRATES

Many nutrient rich foods contain carbs including vegetables, fruit, grains, legumes, nuts and dairy. Count their net carbs towards your daily net carb total.

Counting the carbs in the foods you eat is a snap! Most people don't need to count the carbs in non-starchy vegetables. Listed below is a sampling from different food groups and their approximate net carbs per serving. If you have questions about counting the net carbs in food not included below, please ask one of our dietitians.

FRUIT

- 1/2 cup fresh raspberries- 3g
- 1/2 cup fresh strawberries-5g
- 1/2 cup watermelon-6g
