

POUNDS TRANSFORMATION

NATURAL GLP

OVERVIEW

The next four weeks are going to focus on foods and supplements that increase the production of GLP-1 from your gut cells. The foods recommended are high in polyphenols, slowly digested peptides, long chain fatty acids, and prebiotics that are meant to naturally increase GLP-1 production.

The addition of allulose in the form of RX sugar products, Akkermansia, and exogenous ketones will all enhance GLP-1 production further. Week 1 will introduce these foods/supplements to your body and the subsequent weeks will increase the servings to maximize benefit.

Avocado Pesto Chicken Spaghetti Squash - Serves 6

<i>3 lbs spaghetti squash, halved lengthwise and seeded</i>	<i>2 cloves garlic</i>
<i>1 ripe avocado</i>	<i>¾ teaspoon salt, divided</i>
<i>1 cup basil leaves</i>	<i>¾ teaspoon black pepper, divided</i>
<i>¼ cup shelled pistachios</i>	<i>4 tablespoons olive oil, divided</i>
<i>2 tablespoons lemon juice</i>	<i>2 lbs boneless, skinless chicken breast, trimmed and cut into 1 inch pieces</i>

PROCEDURE

Preheat oven to 400 degrees. Place squash, cut side down and bake until tender, about 45 minutes (This can be done ahead of time).

Meanwhile, combine avocado, basil, pistachios, lemon juice, garlic, ½ teaspoon salt and ¼ teaspoon pepper in a food processor. Pulse until finely chopped. Add 3 tablespoons oil and process until smooth.

When squash has about 10 minutes left to cook, toss chicken, 1 tablespoon oil and remaining salt and pepper together in a medium bowl. Spread the chicken in an even layer on a baking sheet. Bake until cooked through, about 10 minutes.

Once squash can be pierced with fork, remove from oven and scrape the squash from the shells into a large bowl using a fork. Add chicken and toss to combine. Top with pesto and serve.

Citrus Chicken Thighs and Zucchini - Serves 6

2 pounds organic boneless chicken thighs
2 teaspoons kosher salt
2 lemons, juice of both and zest of one
2 limes, juice of both, zest of one
Zest of 1 orange

3 cloves of garlic
1 large onion, cut into wedges
4 tablespoons butter, separated
3-4 medium zucchini, diced

PROCEDURE

Place chicken thighs into the bottom of a 6-quart slow cooker.

Zest one lemon, one lime, and the orange into a small bowl. Add the juice of both lemons and both limes to the bowl. Add salt and stir to combine.

Pour juice over the chicken. Add whole garlic cloves and onion wedges on top of chicken. Dice 3 tablespoons of butter into cubes and sprinkle over the top of everything.

Cook on low for 4-5 hours. This is a recipe that could dry out if you leave it to cook longer.

Before chicken is ready, eat a medium sized pan over medium heat. Add butter. Once melted, add diced zucchini and cook for 5-8 minutes depending on desired doneness.

Serve the chicken with a side of zucchini.
