

SUPPLEMENTS

Our goal is to make sure together we maximize your body's health. Even when making great nutritional choices, you may not obtain all nutrients your body needs to function optimally. And that's okay! The brands carried at Pounds are high quality and cost effective. We encourage you to use them.

RECOMMENDED SUPPLEMENTS

☐ OMEGA-3 FATTY ACIDS

Taking fish oil significantly reduces the risk of heart disease, decreases inflammation and promotes weight loss.

☐ VITAMIN D

The benefits of vitamin D range from improving energy, promoting weight loss, and reducing the risk of developing colon cancer.

☐ MULTIVITAMIN

Food sources are not produced or harvested in a manner to provide adequate vitamins and minerals. Taking a multivitamin maximizes your body's ability to function efficiently.

☐ VITAMIN B COMPLEX

Carbohydrate reduction can reduce vitamin B levels due to a decrease in fortified grains. Supplementation is recommended for weight loss and energy.
