

DAIRY-FREE BREAKFAST CHEESECAKE - SERVES 4

INGREDIENTS:

- 8 oz (1 brick) vegan cream cheese, softened (*Kitehill, Tofutti, etc.*)
- 1 block silken tofu
- 1/3 c sugar substitute (*Supercroce, Stevia, etc.*) 1 large egg + 1 yolk
- 1 serving vanilla vegan/plant-based protein powder
- 4 Tbsp sugar substitute (*Supercroce, stevia, etc.*)
- 2 Tbsp unsweetened full-fat coconut cream (*just the creamy part on top!*)
- 1 tsp vanilla
- 1 Tbsp lemon juice
- 1/2 tsp nutritional yeast (*Trust me! It adds tang!*)
- Pinch of salt

PROCEDURE

Blend all ingredients until smooth.

Fill half pint "jam mason jars (8 oz) halfway (*can use small oven-safe ramekins instead.*)

Place uncovered mason jars on a baking sheet (*so that they don't spill*) on the top rack of the oven. On the rack underneath, fill a casserole dish/oven safe bowl with water to use as an "oven bath". The steam will help with the cheesecakes texture.

Bake at 300°F for 30-40 min. Turn off the oven and let the cheesecakes cool in the oven a bit before taking them out. This will help prevent them from splitting open. Then remove them from the oven and let them cool on the counter for ~30 minutes before putting them in the fridge to chill for 2+ hrs.

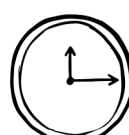

Top with mixed berries, chopped nuts, etc.
